OUR VISION

The lifeline to better health

We are constantly developing innovative In-Vitro Diagnostic solutions to accurately uncover the truth hidden in a single drop of blood. Our actions help to understand the known and discover the unknown, leading to the earliest detection, treatment and monitoring of the health of patients all over the world.

Our cutting-edge In-Vitro Diagnostic solutions provide the lifeline that connects doctors and clinicians to their patients to deliver a positive health outcome.

EUROPEAN QUALITY GLOBAL RANGE

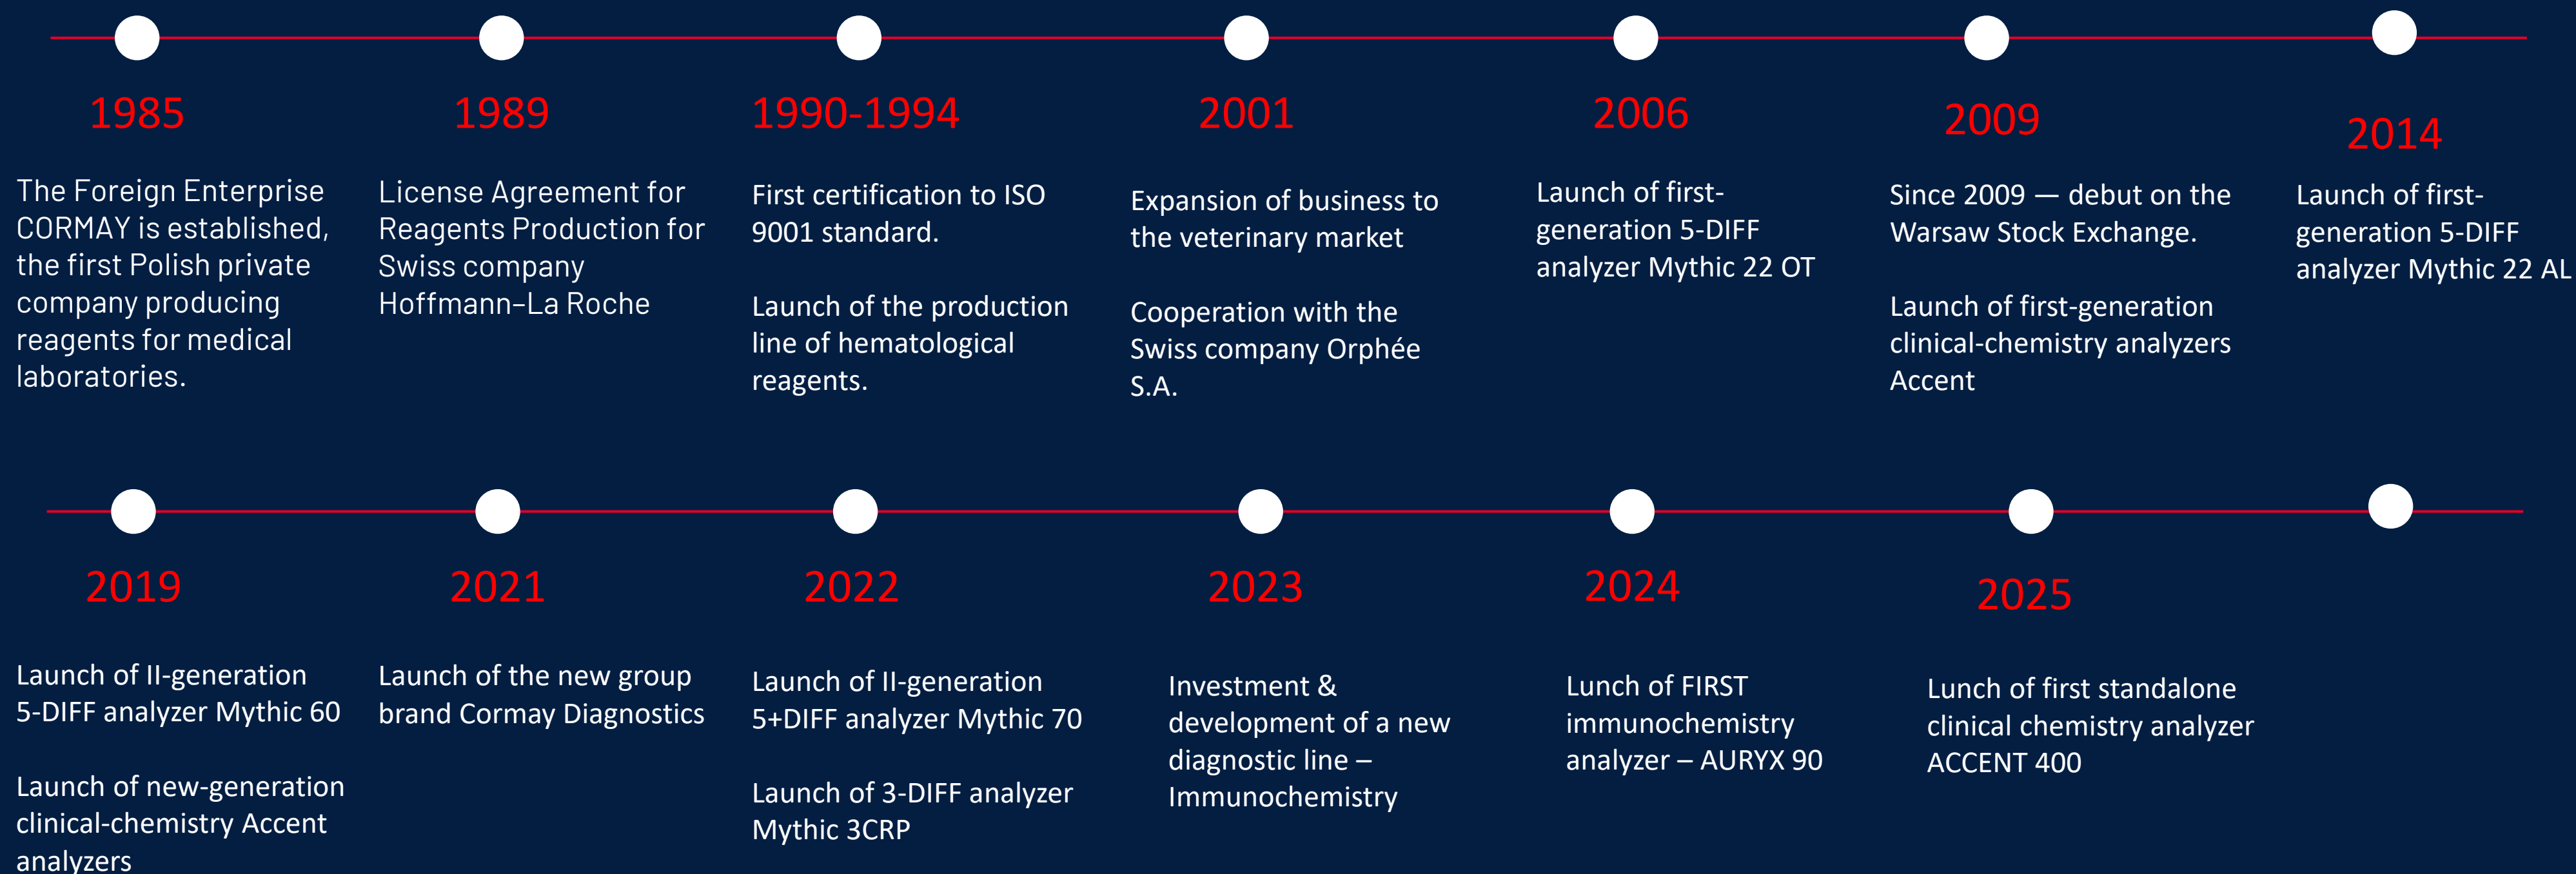

The company originates from PZ Cormay, founded in 1985 as the first private Polish enterprise producing reagents for medical laboratories.

Cormay Diagnostics is an **European IVD manufacturer for over 40 years** of experience, delivering high-quality diagnostic solutions **in over 120 countries**.

We connect **experienced manufacturer of reagents**, Cormay with the **outstanding technology knowledge** of Swiss hematology company, Orphee to build the IVD brands that have been trusted by healthcare professionals from all over the world.

200 EMPLOYEES

FIRST PRIVATE POLISH PRODUCER OF
MEDICAL LABORATORY REAGENTS

OUR TEAM

We truly care about you and your diagnostic tests results.

Our team of experts and specialists combines international experience in the IVD industry with a deep understanding of the local needs of diagnostic laboratories.

This allows us to effectively support our partners in selecting the right solutions, implementing them, and assisting in everyday operations - **delivering value regardless of the project's scale or budget.**

OUR REAGENTS

Diagnostic reagents are manufactured at our facility in Poland, ensuring reliability and safety, which is key for effective treatment.

We develop and produce high-quality reagents for both open and dedicated analyzers.

WHY CORMAY REAGENTS?

- ✦ Compatible with a wide range of analyzers
- ✦ Ready-to-use, stable, and reliable
- ✦ Enhance analyzer performance and accuracy
- ✦ Manufactured according to strict quality standards
- ✦ Manufacturing at our own facility allows flexible response to customer needs and market changes

WHY PARTNER WITH CORMAY ?

- ✦ **EUROPEAN QUALITY. GLOBAL RANGE.**
Trusted by public and private hospitals in over 120+ markets
- ✦ **AFFORDABLE & EFFICIENT**
Competitive analyzer pricing with low cost per test
- ✦ **COMPLETE PRODUCT PORTFOLIO**
Clinical Chemistry • Immunochemistry • Hematology • Urinalysis • Veterinary
- ✦ **ONE SUPPLIER. TOTAL SOLUTION.**
Full diagnostic package: instruments, reagents, calibrators, controls and technical support.
- ✦ **COMPREHENSIVE SUPPORT**
Technical, application, regulatory and marketing assistance at every stage.
- ✦ **TENDER-READY**
Full documentation support for government and institutional tenders.
- ✦ **LOGISTICS EXPERTISE**
Reliable coordination with Asian, African and Latin American markets and local import procedures.

WE ARE DRIVEN BY QUALITY

Reliability

We manufacture products that deliver tests results you can trust.

Proven Quality

We supply high-quality in-vitro diagnostic solutions all over the world.

High Performance

We comply with the legal requirements.

Cost-effectiveness

We care about productivity to provide our customers with competitive products.

Satisfaction

We want to meet our customers' expectations.

OPERATIONS DEPARTMENT

RESEARCH & DEVELOPMENT

The R&D Department ensures our competitiveness by developing new diagnostic photometric tests and advancing clinical chemistry and hematology analyzers.

QUALITY ASSURANCE

The Quality Assurance Department ensures IVD products remain safe and reliable across research, development, manufacturing, and sales.

PRODUCTION

We produce our diagnostic reagents in Poland, using advanced technologies and certified quality systems to ensure reliability, flexibility, and fast response to customer needs.

LOGISTIC & TRANSPORT

We manage storage, warehousing, transportation, and delivery to ensure customers receive their orders safely and on time, providing excellent support throughout the process.

WHAT WE DO?

We bring the trusted technology & performance

that helps Doctors & Clinicians make life saving
decisions for patients in need.

We believe that advanced technology is the key to delivering the highest quality, performance, and reliability in **IVD laboratory diagnostics**.

We are committed to developing innovative **analyzer technologies** – solutions that truly elevate the standards of diagnostic testing. At the same time, we ensure top **quality and excellent performance of our reagents, calibrators, and controls**, all of which form an integral part of our IVD systems.

Our expertise spans a broad diagnostic spectrum: **immunochemistry, clinical chemistry, hematology, urinalysis, and veterinary diagnostics**.

With our fully validated IVD solutions, we support small and mid-size laboratories in achieving accurate, consistent, and reliable results every day.

ACCENT Line

Accent Clinical Chemistry Analyzers together with the high-quality dedicated reagent line, calibrators and controls provide COMPLETE SOLUTION suitable for small to mid-size laboratories.

Fully automated, compact size, small reagent consumption and reliable technology are basic characteristic of the new generation of the ACCENT FAMILY.

ACCENT 400

420 T/H & up to 626 T/H with ISE*

ACCENT M320

up to 360 T/H* & up to 540 T/H* with ISE

ACCENT MC240

240 T/H & up to 400 T/H with ISE

ACCENT S120

Up to 200 T/H* & up to
400 T/H* with ISE

* based on calculations

Biochemical reagents for guaranteed reliable results

We are a manufacturer of high-quality reagents. We offer the following reagents: biochemical, hematological in closed systems and open lines chosen by specialists worldwide.

✓ 48

months
the longest shelf-life

✓ 12

weeks
the longest on board stability

✓ 12

weeks
the longest calibrations stability

IMMUNOCHEMISTRY

ADVANCED ECLIA
TECHNOLOGY
YOU CAN TRUST

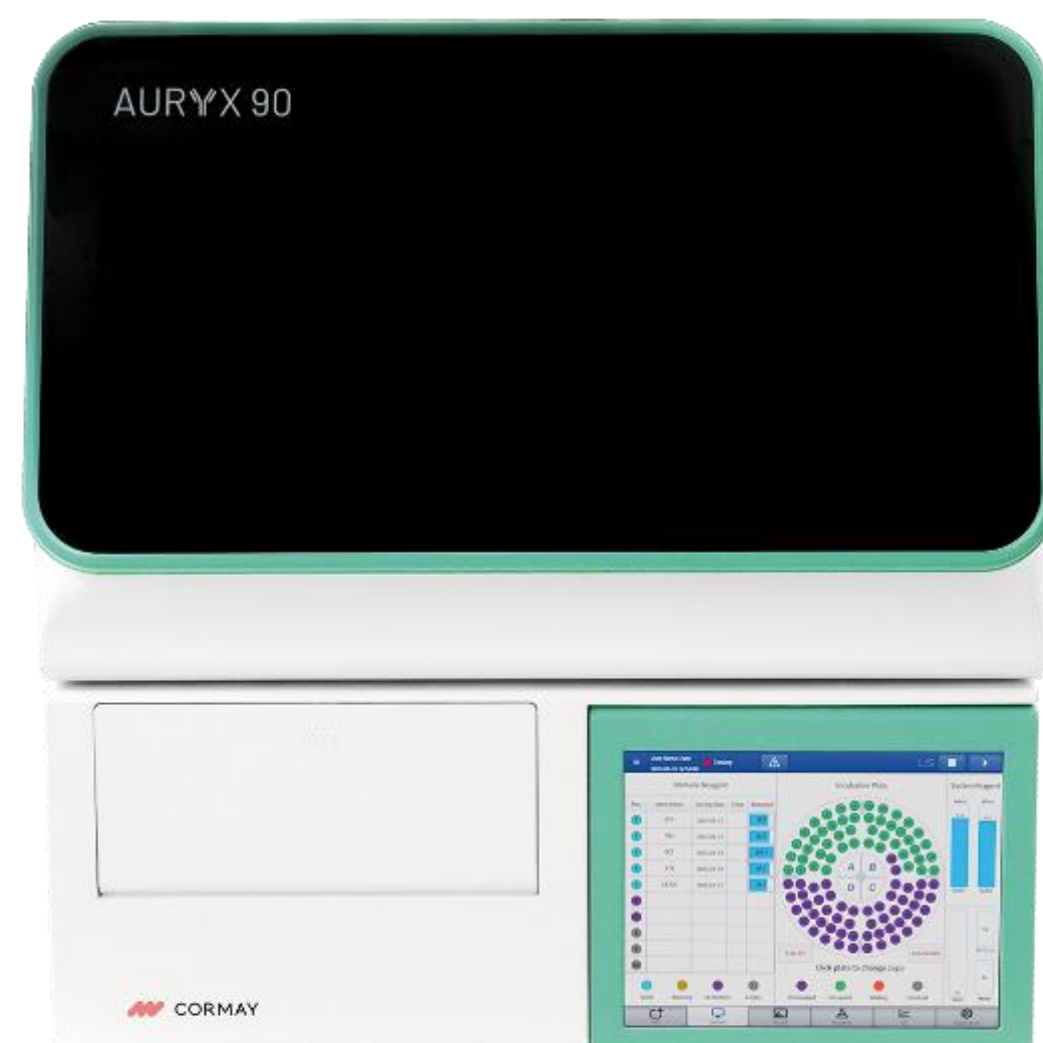

AURYX 90 Immunoassay System

Developing diagnostic test in immunochemistry is important for detecting early stage of the diseases, allowing for timely treatment and better outcomes for patients.

AURYX 90 Immunoassay System is a fully automated analyzer with ECLIA technology to ensure the high-quality and reliable results.

This analyzer comes with smart features making work easier to use and reducing hands-on work.

Advanced and reliable

ECLIA Technology
Tested CV 0,5- 5%

Rapid

Only 9 mins to get the first results
18 mins for some tests

Compact Size

Suitable for small or mid size
laboratory
No additional devices

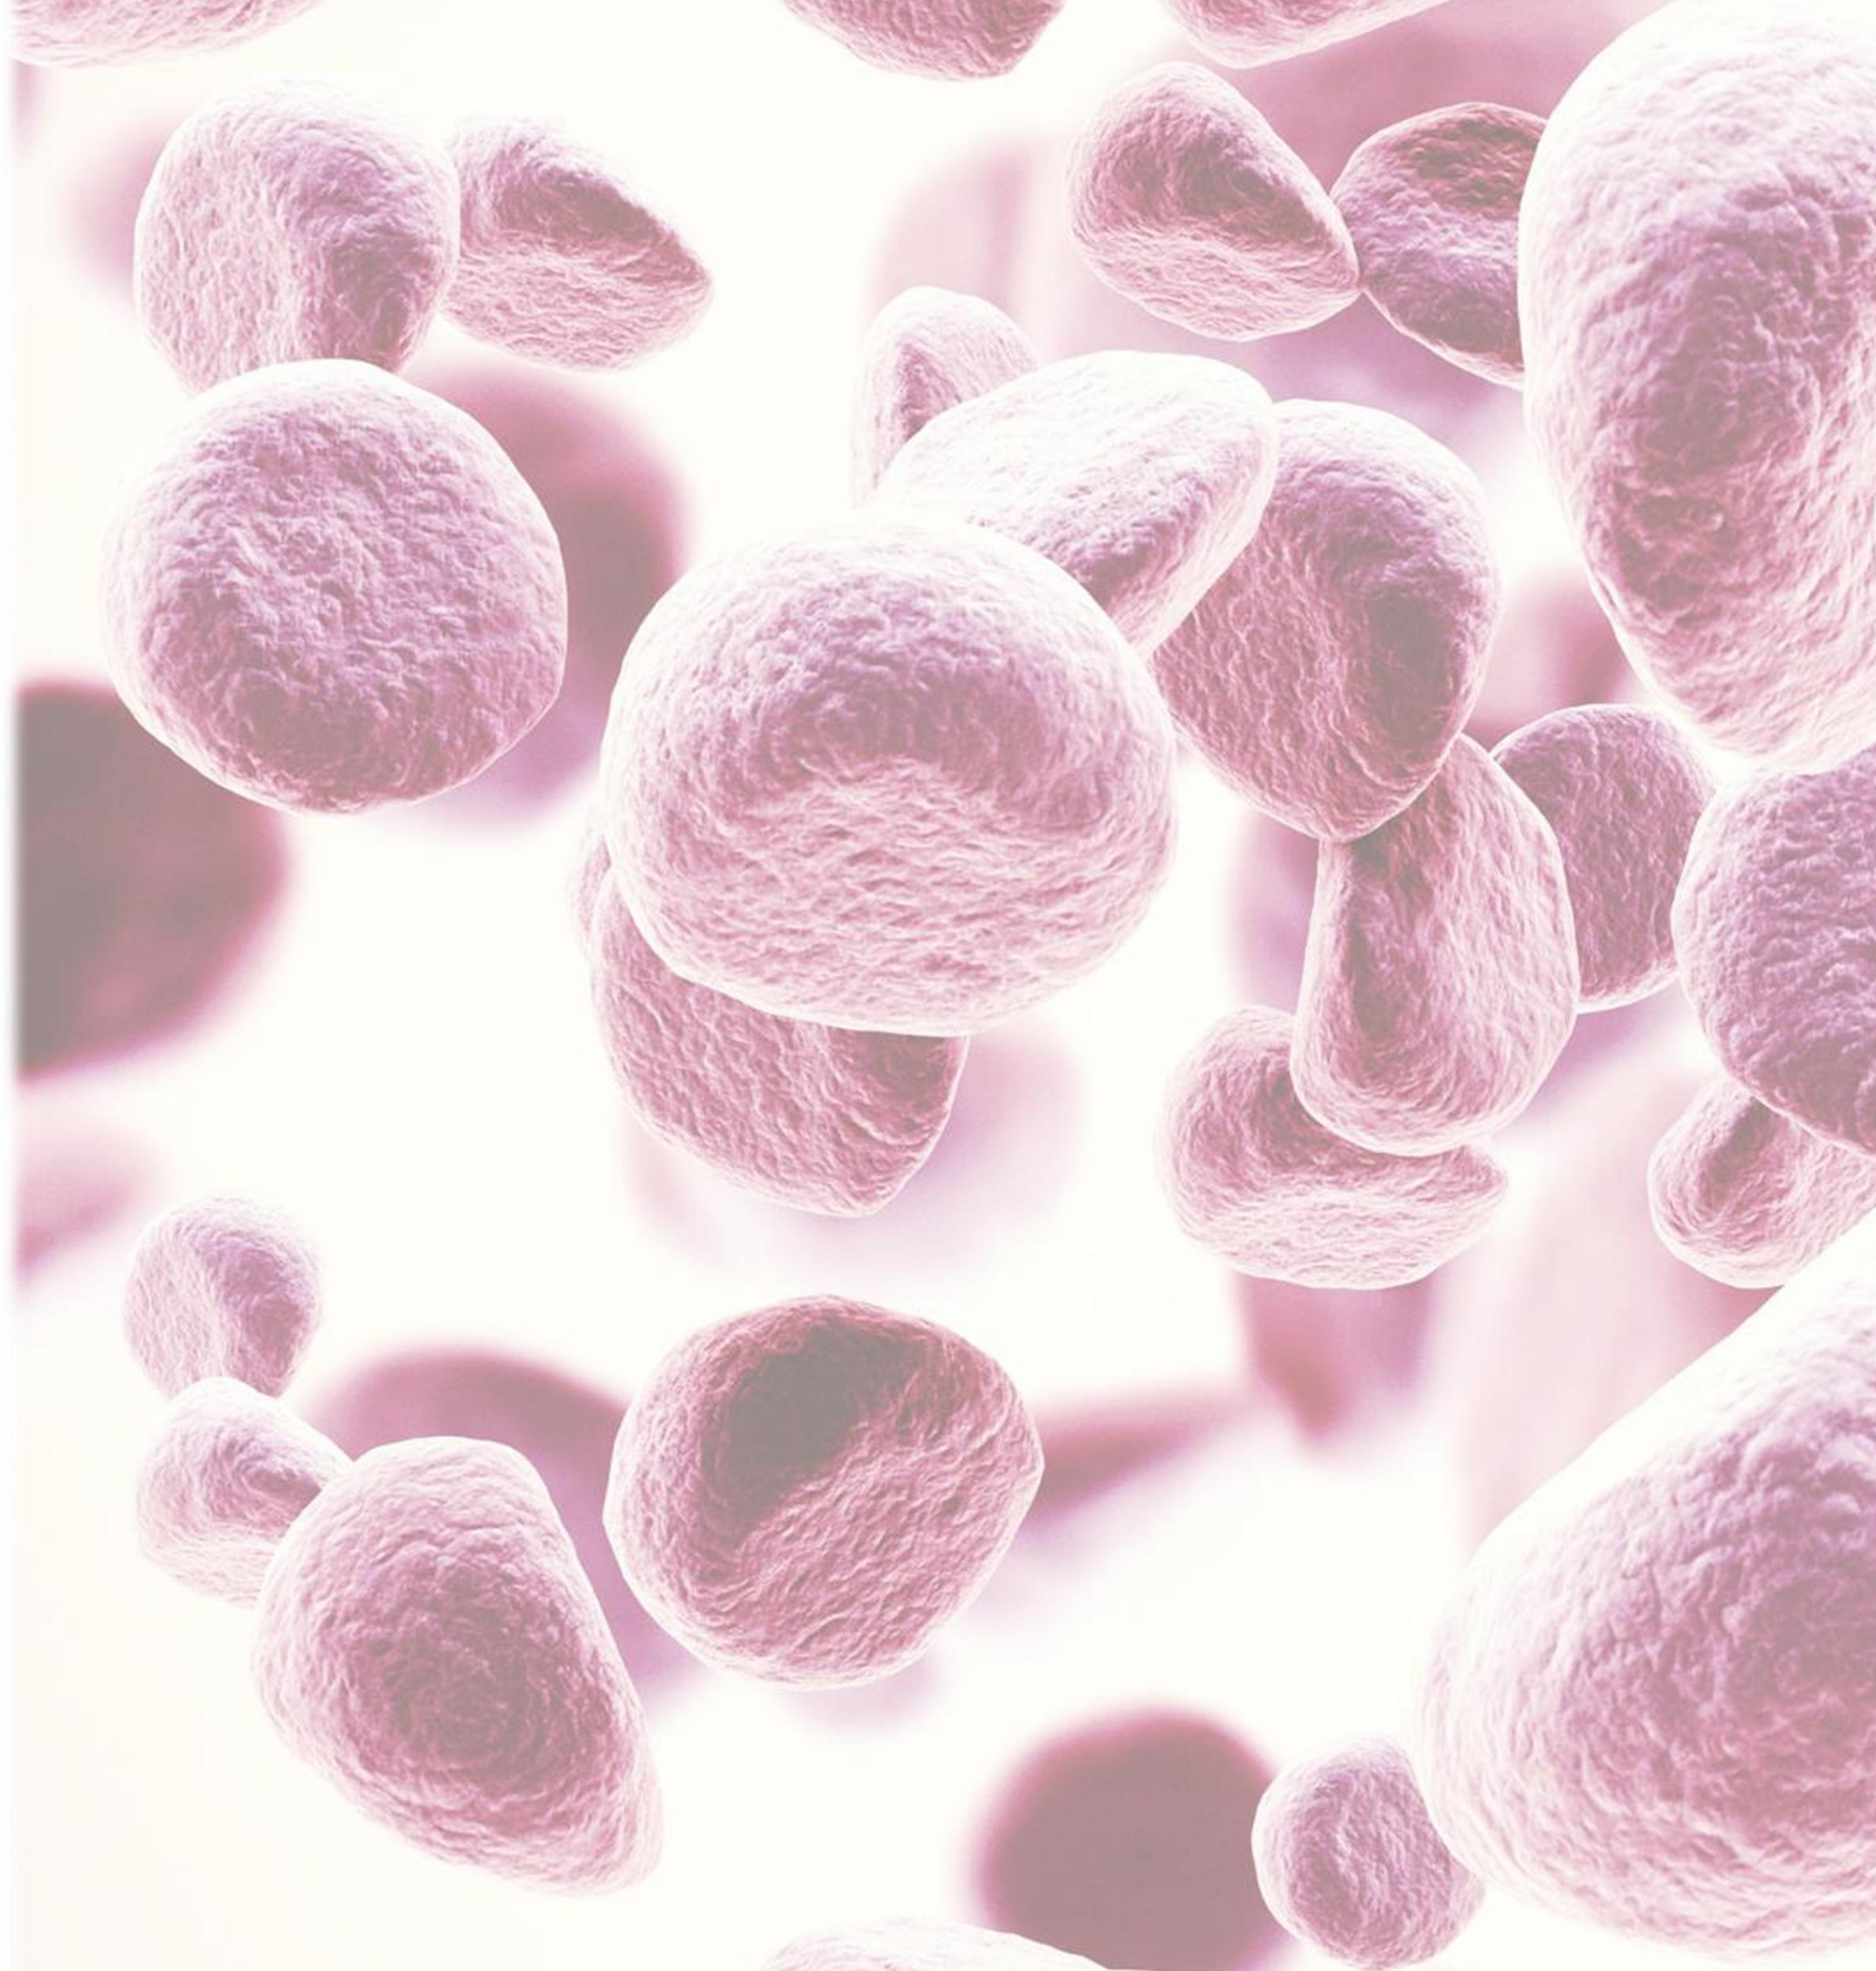

Fully automated

Easy operation
Labour saving
Human error reduction

HEMATOLOGY

MULTI-PATENTED
DIAGNOSTIC SOLUTION
YOU CAN TRUST

MYTHIC Line

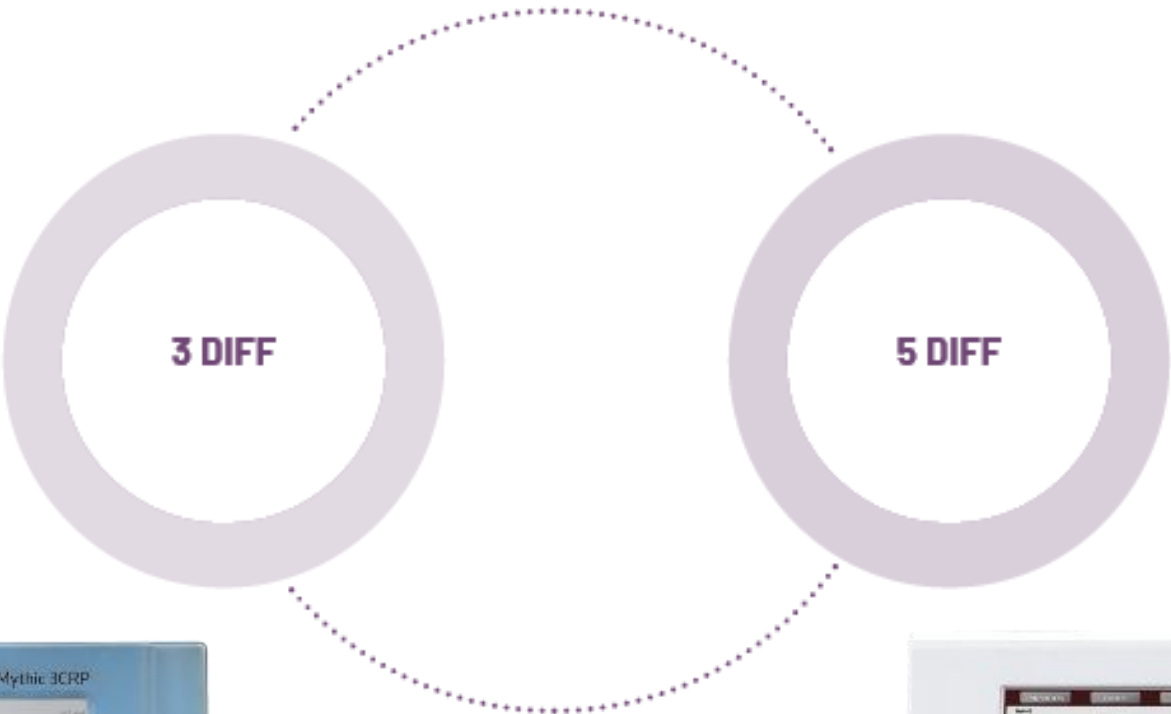

The Mythic family of hematology analyzers has become the flagship of our Swiss hematology company, Orphee.

Compact 3-DIFF and TRUE 5-DIFF analyzers deliver outstanding diagnostic performance and cost savings. Perfect solution for small and medium sized laboratories.

We offer several different hardware options, each with specific parameters and capabilities.

TECHNOLOGY

MYTHIC 18
3 DIFF TECHNOLOGY

- 20 Parameters
- 60 Tests per hour

MYTHIC 3CRP
3 DIFF TECHNOLOGY

- 21 parameters + CRP
- 60 samples per hour
- 3 histograms

MYTHIC 60
5 DIFF TECHNOLOGY

- 28 Parameters
- 60 tests per hour

MYTHIC 70
5 DIFF TECHNOLOGY

- 29 parameters
- 70 tests per hour

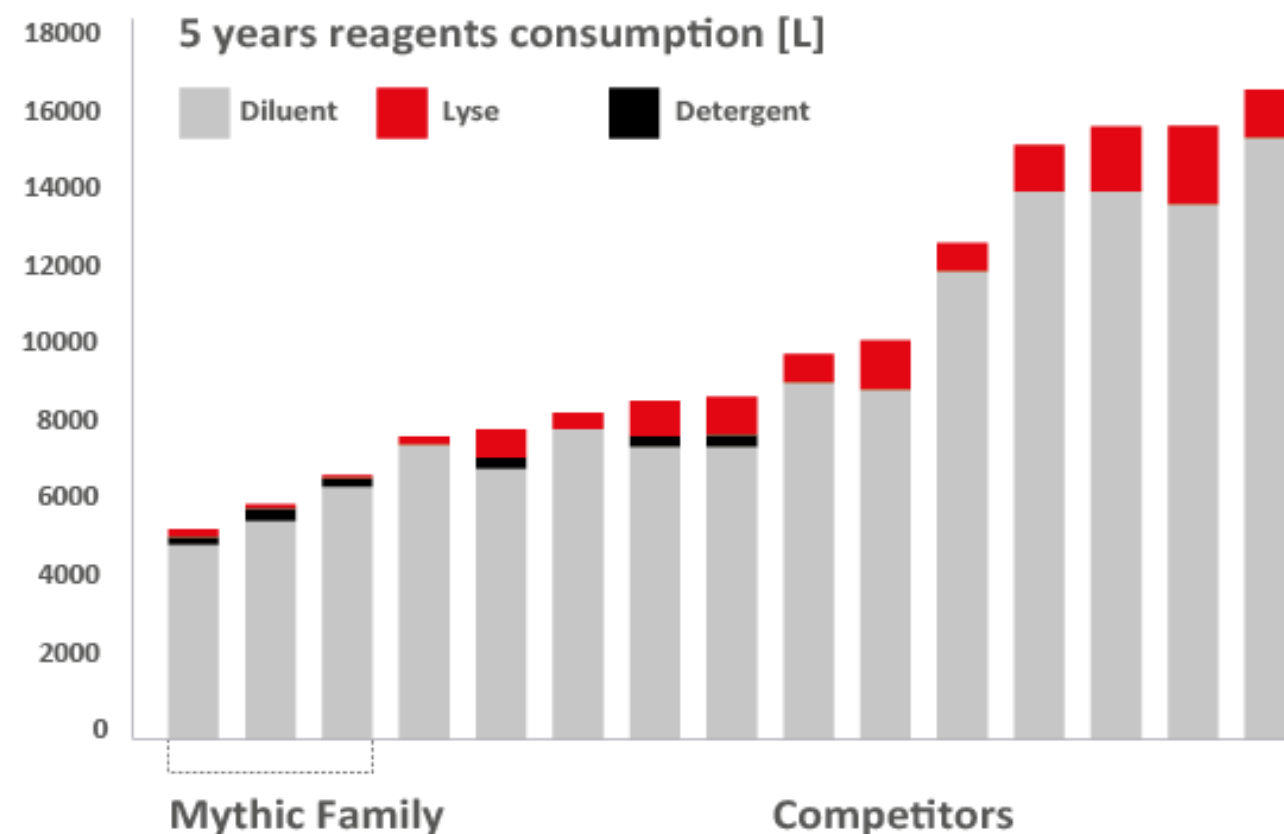

Dynamic Clustering for individualized results for each patient

Significant Cost Savings

Mythic's patented technology reduces reagents consumption and related waste by thousands of liters without any compromise in the accuracy of your diagnostic test result.

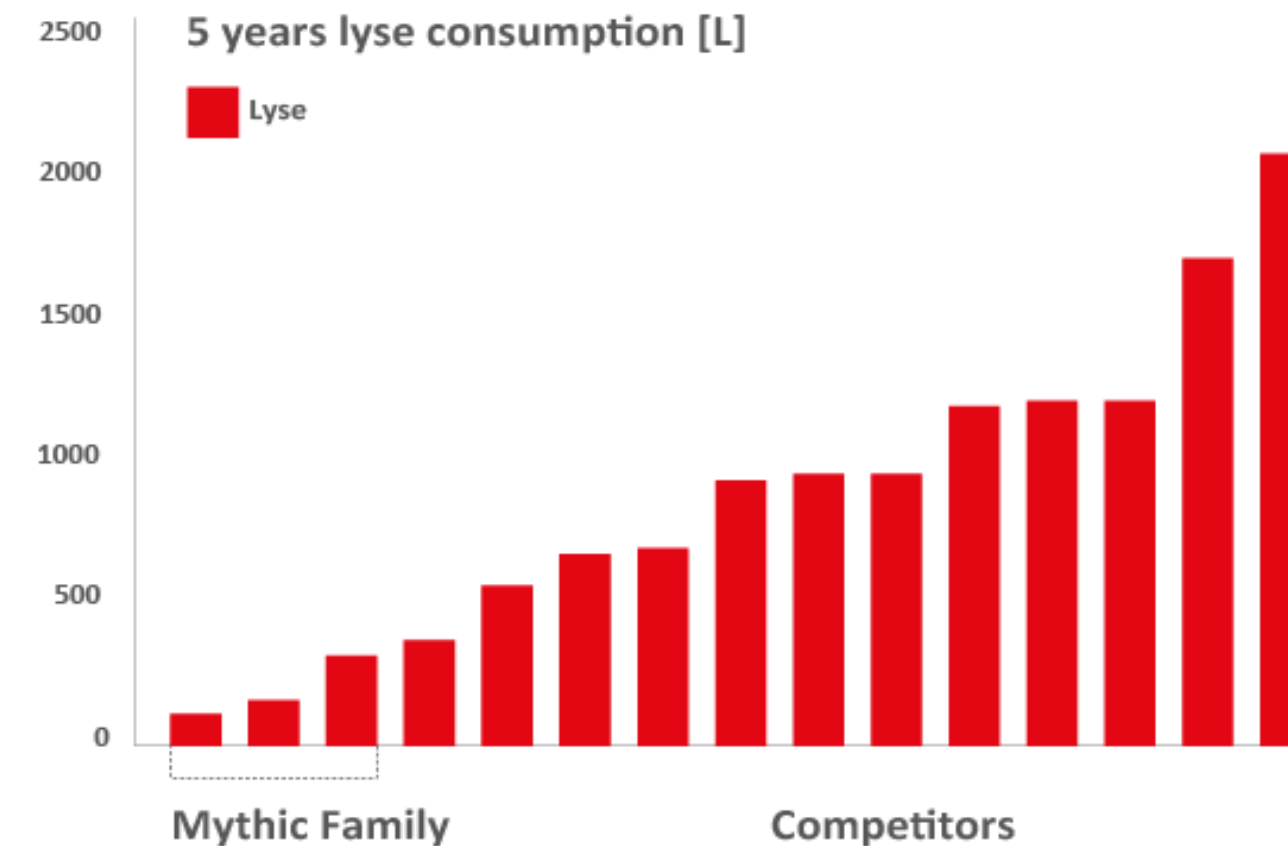

Extremely low sample volume saves precious blood and expensive control material. Our Mythics provide affordable hematology testing for everyone.

Total reagents consumption up to 70% lower

Only 3 reagents used for low cost and environment protection.

Lyse consumption up to 95% lower

OnlyOne non toxic cyanide and azide free lyse helps to save the world for next generation.

VETERINARY

DIAGNOSTICS FOR
EVERY ANIMAL & NEED

Comprehensive Portfolio of Veterinary Diagnostic Tests

Cormay is a professional partner in veterinary diagnostics.

Enhancing animal health by connecting veterinarians worldwide to a comprehensive portfolio of powerful diagnostic tests.

That allows us to deliver effective, accessible solutions among
Clinical Chemistry, Hematology, Urinalysis.

OUR
LINES

Mythic 5VET PRO & Mythic 18 VET

Compact line of hematology analysers was designed for use in professional veterinary clinics and laboratory offices.

Those devices combine intuitive controls with quick and accurate results – a full analysis cycle only takes around 1 min., providing you with 18 or 34 blood parameters, depending on the model.

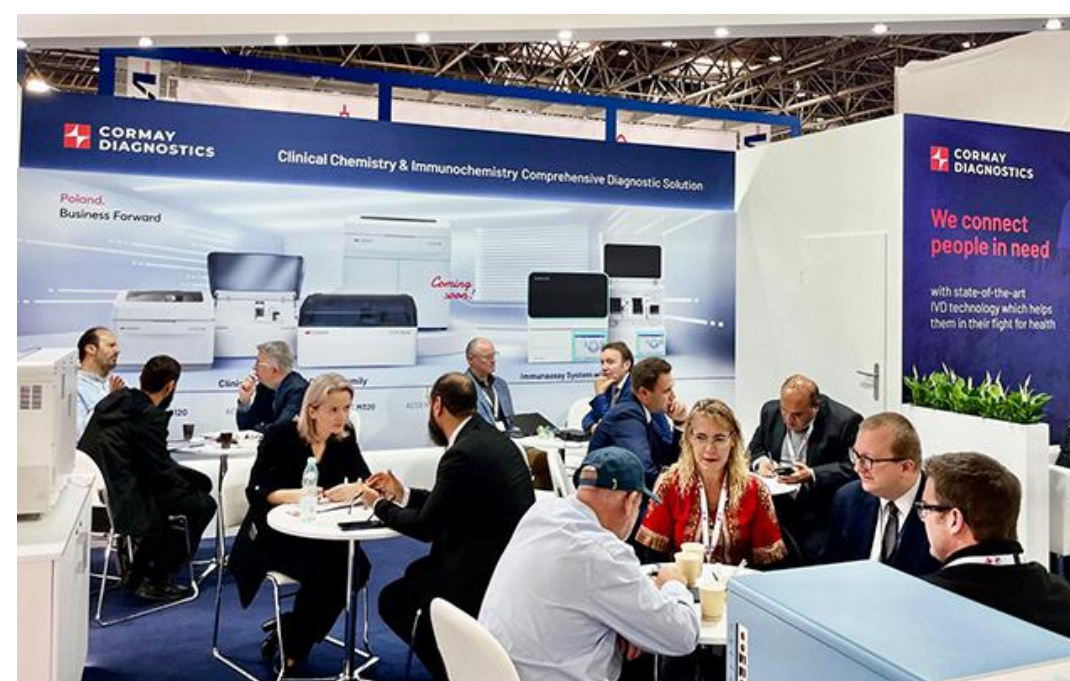

Mythic 18 VET
Basic VET office equipment

Mythic 5VET PRO
Professional 5 DIFF VET analyzer

OUR PRESENCE AT INTERNATIONAL MEDICAL FAIRS

For many years, Cormay Diagnostics has successfully participated in major international medical fairs and conferences around the world, consistently strengthening our global presence and building long-term partnerships.

JOIN TO THOUSANDS OF SATISFIED CUSTOMERS!

FLEXIBILITY

We understand and respect the fact that interactions with our customers need to have a degree of flexibility in them to provide exceptional service

QUALITY

With 40 years of experience, we know how to support your business by maintaining the highest quality and offering a broad, diverse portfolio

PEOPLE

It all starts and ends with a people. From accurate shipments of goods through prompt service reactivity simply care
